***RULES OF CIVILITY FOR THE CITY COUNCIL, BOARDS, COMMISSIONS AND OUR COMMUNITY***

Following are rules of civility the City of Maplewood expects of everyone appearing at Commission Meetings - elected officials, staff and citizens. It is hoped that by following these simple rules, everyone's opinions can be heard and understood in a reasonable manner. We appreciate the fact that when appearing at Commission meetings, it is understood that everyone will follow these principles:

- Speak only for yourself, not for other Commission members or citizens - unless specifically tasked by your colleagues to speak for the group or for citizens in the form of a petition.
- Show respect during comments and/or discussions, listen actively and do not interrupt or talk amongst each other.
- Be respectful of the process, keeping order and decorum. Do not be critical of Commission members, staff or others in public.
- Be respectful of each other's time keeping remarks brief, to the point and non-repetitive.

## **New Bridges built between 1971 - 1995:**

Roselawn Bridge (1992)

### **Other bridges:**

Arcade - Keller Canal Bridge (2003)

Parkway Drive/Frost Ave Bridge (2011)

Sterling St. Bridge (2021)

*According to Maplewood Public Works, none of our bridges meets the SHPO criteria*

## **Background**

Historic bridges are an important part of Minnesota's transportation and cultural history. They physically convey the history of design and engineering in the state and may also be associated with important historic trends, events, or people. As part of its ongoing historic bridge identification efforts, the Minnesota Department of Transportation has commissioned Mead & Hunt, Inc. to assist with an update to the Minnesota Historic Bridge Inventory, which includes bridges built from 1971 through 1995. The purpose of this study is to aid in the management and preservation of historic bridges. The consideration of options for these structures is mandated by federal law, in particular Section 106 of the National Historic Preservation Act of 1966.

A comprehensive identification of significant bridges will allow MnDOT to make informed and timely reviews of proposed projects that will impact historic properties in the future. To achieve this, Mead & Hunt's team is researching the history of the state's bridges and identifying those built during the 1971-1995 period that may possess historic significance for their association with historic events, important individuals, or engineering and design. These bridges will be evaluated for listing in the National Register of Historic Places.

MnDOT has previously conducted inventories of historic bridges constructed in 1970 and earlier. The most recent study, *Evaluation Report and Historic Context: Minnesota Bridges, 1955-1970*, was completed in July 2013. A history of bridges built during the current study period and evaluation criteria report are available upon request from the project team. If you have information about a potentially significant bridge in your community built between 1971 and 1995, please tell us about it! Some questions to consider:

- Are there any bridges on public roads in your community that may have local historic interest?
- Why is the bridge important to the history of your area? For example, a local bridge may have served as a gateway to a community or created access to nearby commercial areas or recreational parks.
- Do any bridges in your area have interesting historical associations? For example, a bridge may have been the site of a local celebration, parade, protest, or historical event.

To share your information, please visit MnDOT's Historic Bridges webpage at <https://www.dot.state.mn.us/historicbridges/studies.html> to access the electronic bridge information

form. Completed forms will be reviewed by the project team. If you have additional questions or would like to speak to a member of the project team, please email the team at [MNbridges7195@meadhunt.com](mailto:MNbridges7195@meadhunt.com).

Thanks for your interest in Minnesota's historic bridges!

**List of Houses 100+ Years Old**

This list combines several lists of old structures. Most are houses but a few structures with other uses are included.  
**County Survey** -- column includes addresses in the survey list, but it appears survey sheets were not done for everything on the list.  
**Misc List** -- is a list of historic properties that is not dated. It appears to be related to a 2009 Map of Historic Structures, but the list and map do not completely correlate.  
**Gone** -- This column needs review. There were notes in the 2003 notebook on some structures that were demolished, but this column needs updated information.
